

Line Testing in the Classroom

PENCIL CHECK

PREMIERE ANIMATION LINE TESTING

PRO

Pencil Check Pro Curriculum

Toon Boom Pencil Check Pro is an easy and complete solution for verifying traditional animation sequences. With Pencil Check Pro you can capture your drawings in many ways including: camera, scanner and bitmap image import. It is even possible to paint your drawings and correct them. Pencil Check Pro also includes camera motion planning and annotation columns in your digital exposure sheet.

The Academic Advantage

Pencil Check Pro is the most flexible line testing software available in the industry. Developed for the most prestigious and demanding studios, Pencil Check Pro provides an extensive feature set designed around a user friendly interface. Pencil Check Pro is the classic animators' best friend, sitting next to the animation table for fast and accurate line tests. An easy to use must-have tool for students learning animation principles.

Learning and practicing animation fundamentals using Pencil Check Pro is easy. Students can sketch key poses directly within the software with instant playback preview and audio track capability while filling the exposure sheet. They can draw the in-betweens, clean the animation and prepare their work for inking and painting. Pencil Check Pro comes with paint tools, including colour palettes and provides import of reference colour models. Finally, they can add camera motion to deliver a finished animation.

Educational Support

Toon Boom Animation offers educational support to all schools, including technical support, user forums, FAQs, news, contests, sponsorships, training and guest speakers.

Field-proven digital software. Toon Boom's client base ranges from major studios creating Hollywood blockbuster animated films to individual animators creating their first masterpieces. Market-leading studios using Toon Boom's products include Nelvana, Warner Bros., Mercury Filmworks, Yowza Animation, Bento Box, China Central Television, Toonz Animation India, eMation, Rough Draft Korea, Alphanim, Cromosoma and Enarmonia, to name a few. Some of the prestigious productions done with Toon Boom's technology include *Les Triplettes de Belleville*, *Looney Tunes: Back in Action*, *The Rugrats*, *SpongeBob The Movie*, *Hanuman*, *Curious George*, *Go West: A New Lucky Luke Adventure*, *Simpsons The Movie*, *Chico & Rita* and *The Princess and the Frog*.

A curriculum to fit your needs.

The Pencil Check Pro Learning Curriculum has all the teaching modules required to take your students from the basic introduction to final production of an animation using Pencil Check Pro. The Teacher Edition has notes and information specifically dedicated to you the educator, as well as guidelines and suggestions which will aid in the teaching of Pencil Check Pro.

Learning Curriculum

Pencil Check Pro is a complete line testing solution that can be used for several different workflows. Some courses or students may be required to cover only the basic or the entire software. That is why this Pencil Check Pro Learning Curriculum is divided in modular lessons.

What Topics are Covered?

Here are the recommended outlines for Pencil Check Pro:

BASIC TRAINING

The Basic Training covers all the modules:

- P1: Interface and Capture
- P2: Timing and Xsheet
- P3: Camera, Sound and Render

COMPLETE TRAINING

The Complete Training covers all the modules:

- P1: Interface and Capture
- P2: Timing and Xsheet
- P3: Camera, Sound and Render
- P4: Colour and Animation

In addition to the introduction and the lesson, each module includes lesson material to complete the given exercises. The Teacher Edition comes with Teacher's Notes to facilitate the teacher's class preparation.

How is The Curriculum Organized?

TEACHER GUIDE
